

**Job title:** Front End Developer  
**Reports to:** CarePortal Chief Innovation Officer  
**Position:** Full-time exempt  
**Location:** Remote or Headquarter office, Kansas City, MO

### **Why apply for this job?**

**You would love this role if you are passionate about seeing delightful technology used to serve people and expand the Kingdom of God.**

The technology you build will directly impact keeping real families together. Every improvement to the UI/UX of our platform helps “the least of these” - families desperately in need of hope, help and the love of Jesus Christ - to be met with selfless actions taken by the local church. These actions are only made possible through your work.

What you do matters. Welcome to The Global Orphan Project.

### **Who is the Global Orphan Project?**

***The Global Orphan Project, Inc. is a Christian nonprofit ministry with a mission to break the orphan cycle through the power of community, commerce, and the love of Jesus Christ. We carry out our mission by equipping and empowering local churches to care for children and families in crisis. We are seeking candidates who understand and are enthusiastic about advancing our organizational mission.***

CarePortal is a ministry platform that supports an interdenominational network of Churches, businesses, people who care, and child serving agencies for the good of children and families in crisis in their community. This network is supported by a team that develops relationships, infrastructure, and technology to empower each participating church. The goal is transformation in the lives of hurting children/families, the Church, and child welfare. Learn more at [www.careportal.org](http://www.careportal.org).

The right candidate is a proven, productive, software professional specialized in developing the UI/UX of web applications using technologies such as Laravel, Blade, HTML, CSS, JavaScript, modern style libraries (i.e. Bootstrap, Tailwind, Bulma), and front end frameworks (i.e. Livewire, React, Angular, Vue) The Front End Developer will be part of a growing tech team designed to make CarePortal a world class platform that serves children around the world. One day Careportal will serve millions of children globally.

This is a full-time position with GO Project benefits. Salary is commensurate with relevant skills and experience.

**What will you be doing?**

- Creating web-based user interfaces using PHP, Laravel, Blade, HTML, CSS, Vanilla JavaScript, Tailwind CSS, Laravel Livewire, and Alpine.js
- Create wireframe, mockups and prototypes for new products and features
- Applying best practices and current trends in modern, responsive design
- Ensure coding style and standards are consistent across applications
- Contribute to the documentation of the development process and architecture
- Help build a standardized component library
- Collaborate regularly with fellow team members including support staff and other developers.
- Keep project manager well informed of the status of development effort and serve as liaison between development staff and project manager
- Keep abreast of new trends and best practices in web development

**What is expected of you:**

- Passionate about empowering local churches to care for children and families in crisis
- Commitment to GO Project's Mission and Core Values
- A keen eye for delightful, intuitive design and user experience
- Ability to work with internal stakeholders to prepare engaging user interfaces
- Creative and efficient problem solver
- 2+ years experience in front end programming technologies such a Laravel, Blade, HTML, CSS, JavaScript, modern style libraries (i.e. Bootstrap, Tailwind, Bulma), and front end frameworks (i.e. Livewire, React, Angular, Vue)

**Other stuff we love to see:**

- Regular acts of service and humility beyond mere coding skills
- Actions that raise the operating level of the entire team
- Experience developing and supporting native mobile apps (Flutter, React Native strong plus)
- Experience with design software such as Adobe XD, InVision, Figma, Sketch, etc. is a plus
- BS/MS degree in Computer Science, Engineering, MIS or similar relevant field experience

The Global Orphan Project is a 501c3 non-profit located at 3161 Wyandotte, Kansas City, MO 64111. GO Project associates are at-will employees.
